What does this mean to you? Main Steel can be your perfect supply chain—from metal sales, processing, stamping and fabricating—to JIT delivery of all your flat rolled needs.

- ◆ The strategy of the Shale-Inland Companies is to deliver stainless, aluminum and carbon steel products and parts, JIT, to North American OEM's and fabricators.
- ◆ We are a Tier 1 supplier of parts to the U.S. auto industry, food service equipment industry, trailer industry, and high quality cookware industry, among others.
- ◆ Our goal is to redesign, lower cost, and optimize the supply chain of our OEM customers.

Main Steel has long been the leader in North America for solutions to metal protection needs—from surface protecting film required during shipping, to customer protective films that are necessary during cutting, bending, stamping or deep drawing operations. It's another component of your supply chain that we have expertise on.

MAIN STEEL—YOUR SUPPLY CHAIN FROM START TO FINISH
