Midland Chutes

Thanks to an abundance of talented labor, low interest rates, inexpensive natural gas, and a resurgence in national pride, American manufacturing is on the verge of a renaissance. The risks and costs of manufacturing overseas are both rising. This is where we come in. We deliver metal or finished parts at the highest level of quality and with the lowest cost structure in our industry. Successfully doing so engenders fierce loyalty in our customer base. This is our goal.

- ◆ We are a Tier 1 supplier of parts to the U.S. auto industry, food service equipment industry, truck trailer industry and high quality cookware industry, among others.
- ◆ By delivering a broad spectrum of metal or finished parts just-in-time, we allow our customers to be innovative, assemble their products more efficiently, and get them out the door.

With facilities strategically located across the country, Shale-Inland is uniquely qualified to handle all of your needs.

THE SHALE-INLAND FAMILY OF COMPANIES

Craig Bouchard, Chairman & CEO

Your Perfect Supply Chain – Main Steel aspires to be the only service center in the metals industry which can seamlessly deliver on a nationwide basis high quality stainless, aluminum and carbon products—or finished parts to the Fortune 1000 OEM marketplace.

Keith Medick, CEO

Unmatched Capabilities and Customer Service – A TS Certified Tier 1 and Tier 2 stamping parts supplier to the U.S. auto industry. Full service fabricator to the Fortune 1,000 companies specializing in stainless, cold rolled steel, hot dip galvanized, electro galvanized, aluminum and more, ranging from prototypes to full production runs.

Alan Blankshain, CEO

Providing Steel and Finished Parts to Parabolic Trough and PV Solar Power Companies – The solar power industry will grow at the highest rates of all the alternative energies. Our partner, the Solar Trust of America, currently developing the largest solar power plant in the world in Blythe, California, has won more permitted sites than any player in the North American solar industry.

MIDLAND CHUTES

The Nation's Preferred Manufacturer of Linen and Rubbish Chutes – One of the largest manufacturers of laundry and rubbish chutes for high rise buildings and hospitals in the world, shipping finished product to four continents.
