

THE FINISH IS JUST THE START

**“Other people can polish,
but I don’t know whether
they can do it to scale across
multiple locations. There’s a
footprint and confidence. That
to me is their strategic value.”**

—Service Center Customer

At Main Steel, it starts with the finish. Since 1956, we have been the clear leader in polishing and buffing in the industry. And as a toll processor, we specialize in stainless steel and non-ferrous bright metal processing, always providing you with a consistent level of quality... coil to coil, sheet to sheet, plate to plate. In the end, we protect our work and your product using our expertise in protective film application.

- ◆ Processor of stainless, aluminum, nickel, and carbon steels
- ◆ Provides sheet, coil, and plate polishing and buffing
- ◆ Standard and highly specialized finishes
- ◆ Multiple cut-to-length and slitting lines
- ◆ Serving mills, service centers and OEM’s
- ◆ Coast-to-coast geographic reach
- ◆ Key markets include transportation, food equipment, appliance, tanks & vessels

WE'RE THE BEST AT WHAT WE DO!

We offer our customers unmatched processing capabilities, standard and highly specialized finishes, and unsurpassed quality and value. Let us do what we do best – provide you with quality products and finishes, delivered when you need them.
